Designed exclusively for CB2, the Family Rug says not their bold, saturated style is 100% wool, making a big statement in typography in living color or black & white.

"We created this sign for our son James because we wanted to prominently display a word of art inspiration in the family room table so the kids could read it. We love using light as a color because it's fun and unexpected."

"The Hearty Table was inspired by our own antique French lab table with drawers that hold everything from silverware to the kids' crayons and flashcards. It's where we gather as a family and with friends, where we take meetings for work and our kids do their homework, where delicious meals are eaten and wine is served, and where memories are made."

— ROBERT AND CORTNEY NOVOGRATZ

"The Stick Around Chairs are a modern take on a familiar design. The neutral white and gray works with any style— from super traditional to super modern and everything in between."
